WHO SAYS LOLLIPOPS ARE KIDS ONLY?

We started Jolly-Fox with a vision to change the general view of the lollipop by making a delicious sweet treat for adults and break the boundaries for the use of lollipops.

Our lollipops are based on cocktails boiled down to a delicious sugar treat.

Eat them as a lollipop or use them as a stirrer in your drink to top up the flavour.

ABOUT JOLLY-FOX

We started Jolly-Fox with a vision to make a step change for lollipops. We aim to change the general view of the lollipop and break the boundaries for the use of lollipops by turning the lollipop into a delicacy.

Our lollipops are hand cooked in small batches which allows us to carefully pick out and control the ingredients we choose to add to the lollipops. The colours and flavours are nature's own and we do not use preservatives or other unnecessary additives.

Flavour, texture and appearance are important elements for us and our assortment is in constant development. We experiment with different flavours, herbs and spices to make interesting and tasteful lollipops and we create new limited editions.

Drop by our website for inspiration and to learn more.

WE ARE AMBITIOUS ON BEHALF OF THE LOLLIPOP.
WE THINK IT DESERVES IT!

THE SWEETEST GREETINGS
